(In-game screenshot via MapleStory 2) Auto Fishing In addition to the performance, you can also fish although it's a bit tricky. If it is a double day EXP to perform, then perform and vice versa. Level 50–60 You might think that the last ten levels are the hardest, but it's surprisingly easy. Skip all dialogues and intermediate scenes. So, how do you decide which one today? There are, of course, other ways to improve yourself. But if you happen to level an alt, throw those Rotor Walkie Talkies in the chest of Goldus Bank. It also aired a two-hour preview of live stream without announcing it, which is odd to say the least.[AL:MS2] Public relations aside, MapleStory 2's Kritias expansion is bringing a lot to the table, with a new high of 99 and some new capabilities to accompany it, the new floating continent of Kritias with 23 new zones, exploration targets and dungeons, and new level 70 animals, which can be turned into Legendary Animals. If you have a couple of hours to yourself, you can take the full and highly informative video streaming embedded below. Well, except for the ones on the mission. RELATED: How to download MapleStory 2 in the SEA region Give your alt the advantage You can't do it if it's your first character. This is where your life skills are useful as they give EXP flat. Anything that can give him a boost, really. At this point, we're pretty sure many players are already sitting comfortably at the top 60 level. Stay tuned for my next tour! If you've received news about MapleStory 2 exclusively from its website or even its official forums, you're obviously out of the loop when it comes to what's on the horizon, especially since official Twitter has been a source of jokes. It's not really worth using auto-fish from the beginner level. So it's really just "do your main missions and then the automatic ticket life Your way up to 60. However, if done by automatically automatically performs, the amount of use will not be consumed. Advertising according to the Livestream, the new capacity cap is intended to be difficult to reach: 70 to 80 leveling will probably operate familiar to the players, but the 80 to 99 increase is so difficult that players Maplestory 2 other regions still have to hit the cap. But let's go for the simplest methods. The update was to arrive Wednesday 11 December, according to the Community discussion and confirmed during Livestream. It's all the rest to get into this way I didn't win, but if I do it, it must be a standalone guide. If you're leveling a second character, you should go even more quickly. Personally, from 50 to 60 years, I left my priest to destroy the songs (Auto-Run) for 6 hours and when I woke up, it was 60. Pretty sure, the MmoArpg is getting a rather significant expansion. So once I arrived at 50, make a 30-minute / 1-hour automatic ticket and you like level 60 levels in no time. Struggling with your gear score up to 2100? EZPZ. Make sure you don't get sivals from lateral quests! A lot of probability, later, go back and make them if you care about the story. Currently, world bosses give ~ 15% Exc to level 50. This is why when manually runs manually, it consumes the amount of the sheet use. They are predominantly retrieving missions so you don't miss focusing on the main story. The flow also confirmed that Krite will be released into two parts and that content updates like RAID will be released fragmented. Although, if you are a veteran Mapleler who played from the first game, we all know that a character is not enough. Also there The location is different. This to! It's pretty easy to level in MapleStory 2. Devil no. Don't sleep on your main missions. So here are some suggestions on how to level quickly in MapleStory 2! Level 1 ~ 50 focus on the main missions for the real, though. I see you, I see. For example, if your main has Rank 4 Cooking, Pine Mushroom Stew gives 50% EXP boost for 2-hours. At this point, youeAAAAll be out of main quests. The main quest reward gives so much EXP that you can reach level 50 easily in approximately eight hours. ItAAAAs really up to you though, ItAAAAs just faster with a party and thatAAAAs the point of this guide, yeah? If youeAAAAre not yet 60, get there quick since Chaos Mode is coming on November 3 and you doneAAAAt want to miss that. Other than Walkie Talkies, you could also pass your alt a fast mount from your main account. Simple CAAA check the top left of your screen and look at the ticker. If you doneAAAAt mind adding some extra hours to your process, manually get your fishing level to Intermediate then auto-fish from there. Is this where we succumb to side quests? Check this MapleStory 2 wiki for approximate spawn time. Smash tunes, get 60. HereeAAAAs the list of World Bosses. (In-game screenshot via MapleStory 2) Hunt World Bosses You could solo-surf this but being in a party would be better. It has officially been a month since Maplestory 2 launched back on October 1. Alternatively, if you wanna save those tickets then just use the Taxi cAAA you just have to pay Mesos. This will help your alts move faster as they go from one place to another while completing quests. So if youeAAAAre down to channel surf and hunt for bosses or is simply just out of auto-tickets, you could opt to do this. Auto-performing ItAAAAs essential that once you get your first performing sheet from the quest NPC, you doneAAAAt use it on manual performance. Make sure youeAAAAre killing those on the list and not Elite Bosses. Bosses.
